## PERSONAL PROFILE

Multilingual coder and detail-oriented engineer with a diverse skill set, eager to embrace new opportunities.  I'm passionate about Dungeons & Dragons and other social games, which fuel my creativity and teamwork skills. The gap in my resume reflects my relocation to Finland, during which I managed family responsibilities and focused on learning Finnish.

## EXPERIENCE

**Arbeiterkammer NÖ,  Sankt Pölten Austria**- *IT Technician/Apprentice*

SEP 2017 - DEC 2021

- Resolved hardware and software issues across multiple office locations
- Managed backup software and data
- Onboarded interns, providing technical training and support
- Collaborated effectively in team environments, contributing to conflict resolution and maintaining a positive work atmosphere.
- Maintained and developed LAN networks, including relevant documentation

## PROJECTS

**C Programming Projects**

- **[Minishell](#) (C)**
    - Recreated key functionalities of Bash in a custom shell program. Supports running built-in commands like cd and echo, as well as executing external programs, including itself.
- **[3D-Raycasting Game](#) (C++)**
    - Created a Wolfenstein 3D-inspired game, developing a custom raycasting engine from scratch to handle 3D rendering and movement mechanics.
- **[Word Combiner App](#) (Flutter)**
    - Designed and developed a cross-platform word combiner application for Android, Windows and the web, utilizing Flutter for UI and backend logic.

## EXTRACURRICULAR

- Organizer of multiple speaking events and school associations, including the **Game Bee-velopment Club**, fostering a collaborative environment for aspiring game developers.

## EDUCATION

### Hive Helsinki

OCTOBER 2023 - PRESENT

Intensive software engineering program focused on hands-on learning, problem-solving, and project-based development.

### Landesberufsschule Pöchlarn

SEPTEMBER 2017 - APRIL 2021

Completed an EU-recognized apprenticeship with a validated IT Technician certification, demonstrating proficiency in hardware, software, and network management.
